RE: Third Review Revision Fees

What triggers additional fees?

If the revisions and additional reviews are solely the result of a County Request then a fee will not be assessed if the request was not made in previous comment letters.

Minor revisions that result from comments by non Spotsylvania County Government agencies that were not requested in previous reviews and are not the result of revisions to some portion of the plan will not generate additional fees.

Minor changes such as incorrect parcel numbers, errors or omissions in notes, typos ... that are not material to the development plan and do not require significant review time will not generate additional fees.

If the revisions and additional reviews are created by an oversight by the engineer, for not making revisions required by staff in previous reviews or for changes to the plan by the engineer/applicant result in additional revisions then additional fees will be required.
