Detail below what is included in the category 'Other':

Other category includes:

- Medicaid HCB Waiver; Money Follows the Person Transition Services, DD Waiver Case Management, Service Facilitation for Consumer Directed Services
- Building Rental: Non-related groups, AA weekly group, Doll Club
- Other Revenue: Subcontract Seminars and Services (MFP Outreach, VHDA Stipends, DARs Work Analysis.
- Interest Income: Interest bearing bank accounts
- Seminars/workshops: The majority of workshops are provided free to the community.
- ASL Classes have a fee \$60 for six week session, people may return for a repeat class for free.
- Health Insurance Rebate from IRS

Fundraising

- CVC/CFC Designations
- Wheelchair Tennis Tournament
- Special Events
- Pledges & Individual donations

Grants

Department of Aging and Rehabilitative Services:

	FY14	FY15
	234,890	234,890*

*In October 2014, the Department of Aging and Rehabilitative Services (DARS) increased our FY'15 State IL Grant by \$4,965, totaling \$239,855. Additionally, in mid-October 2014, we received notification from the DARS that we will be incurring a 5% reduction of our state funds during FY'15, equating to approximately \$11,993 and bring the overall grant total for FY'15 to \$227,862. A reduction of \$7,028 in FY'15 funds, which will be taken from the remaining grant allotments for FY'15. Furthermore, DARS has stated that FY'16 will incur an additional 7% reduction, this is in addition to the \$7,028 from the already reduced Grant (\$227,862 from \$234,890) equating to approximately \$15,950 more, thus reducing our State Independent Living (IL) Grant to approximately \$211,912, an approximate \$22,978 loss of funds during FY'16; culminating in \$30,006 loss of funding for the next 1.5 years.

Please detail below any legislative initiatives or issues that may impact the agency for the upcoming year and how you are planning for them. This could include new legislation that may increase or decrease projected funding at any level (Federal/State/Local), or could affect grants or designated funds as they are currently received. If you are aware of "outside" funding sources that will expire or be reduced on a set cycle or date, please note those below and how you are planning for them.

Governor McAuliffe recently announced state budget cuts for the current fiscal year which began July 1, 2014 ending June 30, 2015. This strategy reduces state support for the 16 Centers for Independent Living. The Department of Aging and Rehabilitative Services proposes to offset some of the reduction with non-general fund support in order to reduce the impact to people with disabilities. The reduction and offset would result in a net loss of 5% of the dRC core grant for the current fiscal year. The FY 16 proposed cut is an additional 7%.

The minimum funding level for a Center for Independent Living, as identified by the National Council on Independent Living, is \$250,000. The proposed cuts to the dRC State grant award will reduce the Core IL Grant to \$211,912 in FY16. As always, advocacy efforts will be made with the General Assembly to recover the loss of IL funds in the Governor's budget with budget amendments.

Please detail below any identified agency needs or areas of concern that are currently not being addressed in your funding request. This could include training or technical assistance for specific areas, administrative support for a program or service, evaluation of current programs, or consultation for strategic planning, board support, or fundraising.

As a result of the need for increased staff to provide services to individuals with disabilities, the Office Manager's duties have been reduced to approximately 30% of her time, and she has been trained to provide direct services including benefits counseling and independent living skills training. Medicaid billing and data entry duties have been transferred to a part-time staff who is no longer providing group advocacy support and mentoring. The dRC is not able to hire new staff to provide office support and management at this time. An increased effort to train and use volunteers for some of the duties is being made.

dRC continues to increase educational options for the community by increasing staff participation in workshops, conferences and webinar training. Staff involvement in the ADA Leadership network allows up-to-date training available developed by the ADA Technical Assistance Center. Ongoing training is necessary to stay current in the network. Staff make use of web based training to reduce costs when possible.

Please use the area below to provide any locality specific notes or statements that may be relevant to your application.

City of Fredericksburg:

dRC enjoys a strong collaboration with Fredericksburg City Department of Social Services and Schools, participating in a variety of activities and providing a wide array of services in the county. The Executive Director is a member of the DSS Advisory Board. dRC Youth Services Coordinator is Vice-Chair of the Special Education Advisory Committee. dRC collaborates with Fredericksburg City in providing an annual Fair Housing Seminar. dRC staff provided public support at City Council for the Consolidated Plan. The dRC staff additionally provided sample text to be included in the Comprehensive Plan to support the mandate to address the needs of people with disabilities and the elderly in the plan being developed.

Caroline County:

dRC enjoys a strong collaboration with Caroline County Department of Social Services and Schools, participating in a variety of activities and providing a wide array of services in the county. dRC consistently participates in the newly formed Caroline Resource Council, the annual Caroline Promise event, Special Education Advisory Committee and other community activities. We look forward to assisting Caroline County by providing input to future Comprehensive Plan Development to support the mandate to address the needs of people with disabilities and the elderly.

King George County:

dRC enjoys a strong collaboration with King George County Department of Social Services and Schools, participating in a variety of activities and providing a wide array of services in the county. dRC collaborates with the school and parent group to provide training in King George regarding services and supports for students with disabilities, and attend Special Education Advisory Meetings. We look forward to assisting King George County by providing input to future Comprehensive Plan Development to support the mandate to address the needs of people with disabilities and the elderly.

Spotsylvania County:

dRC enjoys a strong collaboration with Spotsylvania County Department of Social Services and Schools, participating in a variety of activities and providing a wide array of services in the county. dRC and PRC staff collaborate on community training, and dRC youth services coordinator attends the Special Education Advisory Committee. We look forward to assisting Spotsylvania County and providing input to future Comprehensive Plan Development to support the mandate to address the needs of people with disabilities and the elderly.

Stafford County:

dRC enjoys a strong collaboration with Stafford County Department of Social Services and Schools, participating in a variety of activities and providing a wide array of services in the county. Staff volunteer time to participate in CMPT and SEAC monthly meetings, in addition to providing training to school staff and families. dRC and PRC staff collaborate on community training. We look forward to assisting Stafford County by providing input to future Comprehensive Plan Development to support the mandate to address the needs of people with disabilities and the elderly.

Partner Agency Funding Application FY2016
PROGRAM INFORMATION

Each agency submitting a funding request must fill out the following pages for each program serving citizens within the region and for which funding is requested. Any incomplete applications or programs that do not have a full application will not be considered for funding. PLEASE do not include any unrequested information. Each locality reserves the right to request additional information once the application has been submitted.

Program Name:	Core Services & Community Education	Is this a new program?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
Program Contact:	Debra Fults	Title:	Executive Director
Telephone Number:	540-373-2559 ext#151		
E-Mail Address:	dfults@cildrc.org		

1. Program Purpose/Description: *(the following description should not exceed 10 lines of text)*

Information and referral, independent living skills training, peer counseling, and advocacy are the four Core Services of Independent Living and the dRC. Maintaining an Information & Referral database of local, state, and national resources provides consumers and the community with knowledge needed to make informed choices about services and independent living. Independent living skills training teaches consumers skills to enable them to live as independently as possible: riding a bus, budgeting and keeping a check book, etc. Peer counseling provides one-to-one support to people with disabilities by people with disabilities. dRC staff have disabilities or have family members with disabilities giving them insight to the needs of their consumers. By engaging in and providing on-going training and participating in and maintaining memberships in local, state, and national organizations, committees, and workgroups, dRC staff is able to advocate for the needs of people with disabilities, teach advocacy skills, and provide positive assistance to government entities on the needs of people with disabilities.

2. Justification of Need: *(Please state clearly why this service should be provided to the citizens of the region and why the localities should consider this funding request. If this is a new program, be sure to include the benefit to the region for funding a new request. The following should not exceed 10 lines of text, and should include the most recent data available.)*

dRC is the only cross disability, cross life span agency that serves people without a waiting list with free, confidential services. Citizens with disabilities, their families, and caregivers, when provided with current information about supports and services, are able to make informed decisions enabling them to remain in their home and included in their community. Supporting the dRC philosophy of community inclusion, independent living skills training helps those with disabilities become more proficient in caring for themselves and thus more independent. Peer counseling connects people with similar interests and barriers to share life experiences that contribute to individuals' growth and independent living. dRC staff participate in 60 regional or state meetings to represent people with disabilities. FY 14 dRC provided 97 workshops and participated in 55 Outreach events to raise awareness of people with disabilities' gifts, talents, abilities and needs, along with support services available in the community. dRC is the go-to agency for I&R.

3. Program Collaboration: *(The following should describe, in detail, examples of collaborative efforts and key partnerships between your program and other programs or agencies in the area, and should not exceed 10 lines of text.)*

Many direct service providers, including those serving people with mental health disabilities, bring their clients to the dRC to receive Peer Counseling, Independent Living Skills training, assistance with Social Security filings or Work Incentive Coordination, receive durable medical equipment or communication equipment, or assistance with YMCA free memberships. Collaborative groups dRC participates with and holds finances for include the Healthcare Safety Net Council, Fred. Area Transition Council, Volunteers Organized to Assist in Disaster, & Rappahannock Regional Autism Council. dRC provides free staff and volunteer disability awareness training for Empowerhouse & RCASA. dRC provides ongoing training in a variety of disability related topics (Medicaid, Social Security, ADA & Employment, etc.) that are free and open to all agencies. dRC staff wrote a major portion of the COC strategic plan and facilitated two of the work groups. dRC provides support to local governments by providing input on addressing the needs of people with disabilities and the elderly in Comprehensive Plans.

Partner Agency Funding Application FY 2016
PROGRAM INFORMATION

**Core Services & Community
Education**

4. Program Audience and Service Delivery: *(The following should describe the program's intended audience or client base and how those clients are served. This should include the location of the service and what geographic areas are served or targeted for service. If your program has specific entry or application criteria, please describe it below. Please do not exceed 10 lines of text.)*

People with disabilities are our primary audience. However, their families and caregivers are an integral part of their networks and are included in the dRC's target audience. In addition, local social service agencies, schools, healthcare professionals, and transportation and government entities are all recipients of our trainings and information and referral system. All services are delivered in PD 16. Client services may be provided at the dRC building which includes a conference room and kitchen facilities, or in the resident's home if transportation or other issues related to the person's disability prevent the client from coming to dRC. Individual goals and services may be short or long term, lasting months or years, depending upon the goal(s) and level of support the person needs. The frequency of appointments is decided on by the consumer and staff. Workshops may be provided at the dRC conference room or other community sites, in each locality.

5. Client Fees: *(Please describe the fees clients must pay for the services provided in this program, and how those fees are determined.)*

No Client Fees

6. Budget Information: *(Please complete the following chart with the financial information for this program. In each area include the dollars specifically allocated/requested for this program.)*

	FY2014 Actual	FY2015 Budgeted	FY2016 Projected
Caroline	10,000	10,000	10,500
Fredericksburg	21,080	21,025	22,076
King George	8,000	8,000	8,400
Spotsylvania	26,400	27,720	29,106
Stafford	25,279	25,279	26,543
United Way	0	0	0
Grants	337,083	305,855	302,847
Client Fees	0	0	0
Fundraising	46,804	50,500	53,025
Other	36,349	70,175	72,280
Total Program Budget for PD16	510,995	518,544	524,777

Please indicate, in detail, reasons for increases or decreases in the amounts requested for FY2016. Include whether these changes come from increases in personnel, benefits, or operating expenses. If an increase is being requested, please describe the impact not receiving an increase would have on the program. In particular, please describe in detail if any increase is sought for new positions or personnel.

The Local Government request includes a 5% increase. The state budget reduction will have a negative impact on our ability to maintain staffing at current levels, which provide free, confidential service to people with disabilities, without a waiting list.

7. Goals, Objectives, & Evaluation: *(Please provide the following information regarding the goals and objectives for your program. Space has been provided for two goals, with two objectives per goal. If your agency is funded by the United Way, please include a copy of your Logic Model for this program as a supplemental attachment. Individual descriptions should not exceed 5 lines of text.)*

Program Goal 1:

dRC will advocate for improved local, state and federal systems change and expanded independent living resources for the disability community.

Objectives:

1a.	To collaborate with community coalitions around major disability issues such as housing, transportation, education, community supports, and emergency planning done by localities.
------------	--

1b.	Provide information to the disability community through the dRC newsletter; website , Facebook page, community presentations, participation on local committees, boards, and work groups; and information & referral.
------------	---

Program Goal 2:

dRC will expand the availability and use of assistive technology devices/information systems to individuals with significant disabilities.

Objectives:

2a.	To increase awareness of available assistive technology to the disability community.
------------	--

2b.	To assist individuals to obtain AT and training, when required, on how to utilize equipment.
------------	--

Evaluation Method: *(Please describe the method used to measure the above goals/objectives. Please do not exceed 10 lines of text.)*

Document number of hours in Community Contacts in:

1. Collaboration & Networking
2. Community Education & Public Information
3. Community/Systems Advocacy
4. Information & Referral
5. Outreach
6. Technical Assistance

Document number of pieces of equipment distributed to people with disabilities through the DME recycling program and the deaf and hard of hearing Loan to Own Program. Document the Value of equipment distributed to people with disabilities.

8. Outcome Data: *(Please give the most recent outcome data for the objectives above. Indicate below what time period the data covers.)*

Data Collection Period: 07/01/2013 - 06/30/2014

Objective 1a.

475 Hours Collaboration / Networking
380 Hours Community Education and Public Information
688 Community/Systems Advocacy

Objective 1b.

1,840 Hours Information and Referral
456 Hours Outreach Efforts
175 Hours Technical Assistance

Objective 2a.

687 People "like" the dRC Facebook page.
Presentations: 152 presentations, workshops & outreach tables including information on Equipment Connection and Deaf and Hard of Hearing services at dRC.

Objective 2b.

2,081 pieces of DME equipment distributed to 1,485 people with disabilities
\$31,215 Value of DME equipment distributed to consumers
129 Pieces of Assistive Listening Devices distributed to 79 people
\$19,935 Value of DHOH equipment

9. Program Goal Updates: *(Please provide a brief description of the current status of your program goal(s), given your outcome data. For example, if reported data was well below the stated outcome measure, please indicate why you feel that is the case. Also, include how your outcome data will influence or modify the program for the upcoming fiscal year. These descriptions should not exceed 20 lines of text.)*

Program Goal 1:

dRC staff continue to participate in over 46 community and 14 state coalitions and committees to address the needs of people with disabilities. dRC has active youth and adult advocacy workshops to provide education on the legislative processes, self advocacy tools, and updates on current issues. The goal is to educate and inform interested individuals to become effective self-advocates and advocates on behalf of all people with disabilities. Staff and members advocate for increased accessibility standards to insure our community is welcoming, both physically and attitudinally, for all people. Accessibility audits are performed for businesses upon request.

dRC continues to collaborate with community partners to build community capacity in a variety of issues including: (1) response to environmental modification requests (2) increased need for services for children and adults with autism, which formed a new group list year (3) transition services for students with disabilities graduating from school to community, which includes PATHWAYS Transition conference (4) disaster preparation and response, VOAD, particularly for people with functional needs (5) homeless, dRC is active with the COC, including the long range plan development (6) addressing needs of siblings of children with disabilities, developing a regional SIBSHOP program.

Program Goal 2:

In addition to existing systems for securing assistive devices and environmental modifications for individuals, dRC has a Consumer Service Fund to help individuals purchase AT. dRC staff continue to assist consumers who have the ability to repay, in making application to the Assistive Technology Loan Fund, which is a low interest loan program. The DME reuse program continues to meet the immediate needs of people who require assistive devices to remain in their homes, or access the community. The Equipment Connection is well known in the community. The DHOH Loan to Own program provides assistive listening devices to people who meet the income eligibility. 21 Veterans received free equipment.

dRC is partnering with a private provider to facilitate a workshop and demonstration on new Assistive Technology, including mobility equipment, assisted listening devices, computer hardware/software, and communication devices to address the opportunities for people with functional needs.

10. Community Impact: (Please provide at least two examples of how your services have impacted members of our community. This description should not exceed 20 lines of text.)

Annually, dRC hosts very special Santa visits for children who have disabilities which make it difficult for them to participate in traditional community visits with Santa. The dRC visits include a private meeting with the Santa for the child and their family, photos, refreshments and activities. As one family prepared their child for his visit, they looked at pictures and talked about meeting Santa for weeks prior to the scheduled date. As Dad followed his four year old into the dRC kitchen/Santa's workshop, he heard his child utter his *very first* word, "SANTA!"

A husband and wife participated in dRC Sign Language classes to develop communication after his struggle with throat cancer eliminated his typical speech. By the end of the class they shared what a big difference the class had made in their lives. A grandpa called dRC for help getting a ramp installed on his home in time for his grandson's hospital discharge after a spinal cord injury. With dRC assistance, the materials were donated and the ramp was installed. Although his options are different from his original plan, dRC staff encouraged the young man to continue to pursue his post secondary education. He will re-enroll in college for the spring semester.

dRC Peer Counselor met a woman to assist with independent living skills and adjustment to her spinal cord disability. She identified her desire to get back her independence. Her husband worked a late shift in Northern Virginia and slept during the day. She was reliant on his ability to take her to the grocery store and Doctor's appointments. She was no longer able to participate in her daughter's school activities because she did not have a vehicle that she could get in and drive. The Peer Counselor helped her develop a fund raising plan and outlined the steps to put on a community dinner that included securing a location, live music, silent auction, food and volunteers, most of who are dRC staff. With the assistance in direction, she followed through and worked hard to hold the event. The effort resulted in enough funds being raised to purchase a used van she could drive. A second family was assisted when she donated the accessible vehicle she had to another family with a child who uses a wheelchair.

11. Collaborative Impact: (Please describe how the community would be impacted if your agency were dissolved or merged with another partner agency. This description should not exceed 20 lines of text.)

dRC is the only cross disability, cross life-span agency that provides a wide array of free services to people with disabilities and the community. An important component of Centers for Independent Living is consumer control. Over 50% of our Board of Directors and staff must be people with disabilities. This enables our customers to meet people who have truly walked in their shoes and shared life experiences. As people with disabilities, parents, family members and advocates we share a vision of community acceptance for all people.

We provide free workshops and training, individual technical assistance and advocacy, unique to the needs of people with disabilities. The Equipment Connection program is highly supported by local government funds. Without this resource, many people would either delay a hospital release, be homebound or continue to use broken, faulty equipment that their insurance company refuses to pay to fix.

disAbility Resource Center is known to be the go-to agency for information & referral, assistance and general help navigating resources available to address an individual's need. The dRC also plays a role in building collaborative teams among school staff and families, with the child's best interest always at the center of the conversation. When we assist families, we do not charge for our services and, we believe there is generally a better outcome than when advocates who charge hundreds of dollars get involved.

It is our belief that our community would sorely miss the dRC and the unique services it provides.
