Rappahannock Area Agency on Aging

Agency Budget Narrative

Administrative Expenses

Provide an overview of the administrative costs for your agency.

The administrative cost for the agency is built on the indirect cost associated with running an operation. The cost included in this category are Executive Director, Finance Director, and IT support. The cost are currently around 9% max for the overall administration of the agency which is low compared to other agencies of comparable size. We have worked hard to enhance services while lowering the overhead cost of the agency. Also with the ability to purchase our own building with USDA funding, our rent cost have decreased. However, despite our best efforts, our cost for health insurance, utilities and other costs continue to increase. Federal Grants have increased and were used to offset these cost. We continually search for new ways to save costs.

If your agency is requesting an increase or decrease in administrative funding, please describe in detail the reasons for these changes.

We are experiencing an ongoing increase in benefit costs for staff. Also, we have needed to increase salaries to keep up with the employees hiring market. We have lost several long term employees to better paying positions within the region. We continuously review our benefits package and salary structure to determine ways to retain highly qualified employees without stretching the budget.

Please provide justification for and specific amounts of administrative costs that are defrayed by locality funds.

No administrative cost are charged to the funding provided by the localities. All administrative cost are paid by grants.

Capital Expenses

Please provide an overview of the capital costs for your agency.

Each year, the agency applies for funding with the Department of Rail and Public Transit to pay for vehicles. For the past several years, the agency has received 2-3 vehicles annually. The vehicles are used to replace current vehicles in use to transport residents throughout the region. The agency will receive 2 vehicles for fiscal year 2022 and it's assumed the same for FY23. Even through COVID, with our Senior Cafes closed and numerous meals being delivered by outside services, our vehicles logged more than 120,000 miles during 2021. We are exploring ways to supplement the cost of replacing these vehicles by minimizing emergency repairs using a local mechanic for maintenance cost/plan for each vehicle. We have implemented a 5 year plan to assist us in spreading the costs for upkeep over a 5 year span. Finally, we utilize Techsoup to reduce the cost of software programs for the agency.

Please provide justification for and specific amounts of capital costs that are defrayed by locality funds.

A portion of the locality funding received will be used to pay the matching portion required by the grantor for the purchase of the vehicle. The remaining funding needed to purchase the vehicles will be provided by the Department of Rail and Public Transit.

Salary & Benefit Expenses

Please provide an overview of any increases or decreases in general personnel expenses for your agency.

We have experienced an increase in salary expectations of new employees hired for existing positions. We have also experienced an increase in health insurance costs.

Please provide a description of any changes to agency benefits structure or cost.

Increases in salary expectations of new employees hired for existing positions and increases in health insurance costs are always changing.

Budget Issues

Provide any legislative initiatives or issues that may impact the agency for the upcoming year.

The American Rescue Plan Act of 2021 is providing additional funding for the expansion and creation of new services to older Americans. This funding source is being carefully reviewed by Agencies on Aging throughout the county to determine the best ways to expand services to a growing aging population.

If you are aware of “outside” funding sources that will expire or be reduced on a set cycle or date, please note those below and how you are planning for them.

We are unaware of any outside funding source changes that will be implemented this year.

Please detail any identified agency needs or areas of concern that are currently not being addressed in your funding request.

Prices for goods and services have increased, the cost of keeping talented employees continues to increase while funding remains the same.

Rappahannock Area Agency on Aging

Locality Information

Caroline County

The Caroline Cafe continues to grow in participation. We continue to see an increase in the need for transportation in Caroline County. Feeder routes to public transportation will be a great opportunity to provide the needed assistance in getting older residents to doctor's appointment. The need for virtual socialization and meal programs is increasing and when provided can assist with positive social determinates of health.

City of Fredericksburg

The Fredericksburg Cafe is located at the downtown Fredericksburg Baptist Church. The new location allows our participants the freedom to move about in a more accessibly space. This location also provides an intergenerational space where our seniors and day care children cross paths on a regular basis.

King George County

King George County has a slowly growing Senior Cafe presence. More residents are aware of and using our services.

Spotsylvania County

The Spotsylvania Cafe continues to grow in membership, with more people that drive in attending. This is a great situation as additional participants attend, but the Agency does not have to worry about the transportation waiting list. The Spotsylvania County Sherriff's office is a community partner of RAAA sponsoring multiple events throughout the year which benefit RAAA's clients. Spotsylvania has continued to be an active program and with the hopeful ending of COVID restrictions, be able to provide expanded in-person services soon.

Stafford County

In Stafford County, Cafe participation continues to rise. The Stafford County Sheriff's office has assisted by supporting "Stuff a Cruiser" and "Shop with a Cop" events for RAAA clients. Through the Stafford Cafe, a program called Matter of Balance will be starting soon. This program will be available to the entire Planning District and will provide activities meant to strengthen and give knowledge to those who are vulnerable to falling. This program assists in reducing falls and also helps individuals become more active.

Agency Collaborative Impact

Describe in detail how the community would be impacted if your agency were dissolved or merged with another partner agency.

Without an Area Agency on Aging, the senior population of our community and those who care for them would be devastated. Healthy Generations Area Agency on Aging, as dictated under the Federally funded Older Americans Act, is the designated provider of services and information to/for seniors living in Planning District 16. If we were dissolved or merged with another partner agency, the state would be unable to allocate the designated funding to our area, therefore leaving those over 60 years old without assistance so needed by this population.

Agency Community Impact

Please provide at least two examples of how the mission and vision of your agency impacts the community and overall region.

Example 1

Although the names change year after year, the stories have the same themes. Mr. A came to the agency in danger of having all of his utilities cut-off and having no way to access food or groceries. This situation can come from rising costs, helping family members or having major medical issues which consume all household income. Mr. A contacted the agency to ask for referrals in the area of emergency assistance. We were able to confirm that he had already used all available emergency assistance in the community and due to Covid-19 was unable to access other assistance. Our agency was able to pay his past due utility bills, set him up with bi-weekly home delivered meals, deliver a box of household items and food to his home. After this assistance Mr. A was able to continue paying his bills on-time, receive food that was ready-to-heat and stay comfortably and safely in his home and community.

Example 2

This year we had a client who had no health insurance and had been utilizing the Moss Free Clinic. He was turning age appropriate for Medicare and able to draw his Social Security benefits. The client was going to be receiving very little income from Social Security and had no idea how he would be able to pay for the Medicare benefits and cost of medications. The Agency's Virginia Insurance Counseling and Assistance Program (VICAP) was able to help assist the client with applying for Medicaid and Extra Help through social security. The client came back into the office to meet with the VICAP counselor and was very grateful to find that with the Medicaid assistance he could now afford to get all his prescription medications and have creditable drug coverage as well. The client was able to save a great amount of money by signing up for the assistance. He can get all of his generic drugs for \$3.95 and brand name drugs for no more than \$9.85 and do not have to worry about paying for the plan's premium, as he was able to get into a plan with no monthly premium and no drug deductible.

Example 3 (Optional)

Ms. M, a veteran, was a participant in the Senior Community Services Employment Program (SCSEP) for approximately 15 months. Her barriers to employment included at risk for homelessness, no income, past criminal background as well as a being a recovering addict. All these factors contributed to her being an extremely low prospect to employment. When we met Ms. M she was doing court-ordered community service at the local homeless shelter. We were able to secure a partnership with the shelter as a Host Agency and Ms. M became a SCSEP participant. One of her greatest joys was announcing that she was more than two years sober and receiving a BJ's warehouse membership card. A BJ's card may seem like a small feat for most, but for someone who has struggled to have a sense of normalcy, her sobriety as well as the card were major accomplishments worth celebrating. Ms. M took advantage of basic computer training at the Goodwill Job Help Center. HGAAA staff further assisted with the preparation of a resume and job interview training. All these factors led to the offer of employment to Ms. M from her host site. In such a short time Ms. M took advantage of all training opportunities and was successful in gaining employment.

Phone (540) 371-3375

Program Purpose / Description

Provide an overview of this program

The Title V/Senior Community Services Employment Program provides training for those who are unemployed, 55 years old and older, low-income and hard to place in employment situations. Participants are placed into non-profit organizations for the learning of new skills and updating of old, with the goal of unsubsidized employment.

Client Fees

Please describe the fees clients must pay for the services by this program.

No fees.

Justification of Need

Please state clearly why this service should be provided to the citizens of the region and why the localities should consider this funding request.

Unemployed and underemployed older individuals require a higher level of support from the community in order to exist and remain housed. With a small hourly wage and a purpose participants are much more contributing members of the community.

If this is a new program, be sure to include the benefits to the region for funding a new request.

This program has been administered in this planning district for many years by Healthy Generations Agency on Aging .

Target Audience and Service Delivery

Describe the program's intended audience or client base and how those clients are served.

Senior Community Services Employment Program provides training for those who are unemployed, 55 years old and older, low-income and hard to place in employment situations. Participants are placed into non-profit organizations for the learning of new skills and updating of old, with the goal of unsubsidized employment.

If your program has specific entry or application criteria, please describe it here.

Applicants must be unemployed, 55 or older, meet income guidelines as set forth by federal mandate and have barriers to employment.

Rappahannock Area Agency on Aging - Title V

Program Budget Narrative

Please indicate in detail reasons for increases or decreases in the amounts you are requesting.

The increased funding request in the SCSEP/Title V Program is due to the need for local government funding in different program areas. Overall Local Government Funding requests have not changed.

If an increase is being requested, please describe the impact not receiving an increase would have on the program.

The program will not be able to continue due to lack of matching funds.

In particular, please describe in detail if any increase is sought for new positions or personnel.

None.

Rappahannock Area Agency on Aging - Title V

Collaborative Impact

Efforts and Partnerships

Describe in detail examples of collaborative efforts and key partnerships between your program and the other programs or agencies in the area.

The agency's Title V program works with multiple non-profits and area employers to provide training experience as well as unsubsidized employment for participants. Without these partnerships the program couldn't exist.

Collaborative Impact

Describe in detail how the community would be impacted if your program were dissolved or merged with another partner agency.

Without the program, those with barriers to employment would have even less of a chance of successful employment.

Rappahannock Area Agency on Aging - VICAP

Collaborative Impact

Efforts and Partnerships

Describe in detail examples of collaborative efforts and key partnerships between your program and the other programs or agencies in the area.

The agency works closely with other community businesses to provide information and education on Medicare issues and fraud. Local Departments of Social Services, Alzheimer's Association, and medical facilities are all key partners.

Collaborative Impact

Describe in detail how the community would be impacted if your program were dissolved or merged with another partner agency.

With the dissolution of VICAP the community will lack access to awareness of services and programs to provide healthy aging and ways to age in place.

Rappahannock Area Agency on Aging - Ombudsman/DMAS Ombudsman and Elder Abuse

Program Overview

You may save your work at any time by clicking on the "Save My Work" link/icon at the bottom or top of the page.

When you have completed all questions on the form, select the "Save My Work and Mark as Completed" link/icon at the bottom or top of this page.

You may also SWITCH between forms in this application by using the SWITCH FORMS feature in the upper right corner. When switching forms, any updates to the existing form will automatically be saved.

General Information

Program Name Ombudsman/DMAS Ombudsman and Elder Abuse

Is this a new program? No

Program Contact

Name Patricia Holland

Title Executive Director

Email pholland@healthygenerations.org

Phone (540) 371-3375

Program Purpose / Description

Provide an overview of this program

Ombudsmen advocate for older persons receiving long term care services, whether the care is provided in a nursing home or assisted living facility, or through community-based services to assist persons still living at home. We provide older Virginians, their families and the public with information, advocacy, and assistance to help resolve care problems.

Client Fees

Please describe the fees clients must pay for the services by this program.

The Old Americans Act prohibits fees being charged for assistance through the Ombudsman program.

Justification of Need

Please state clearly why this service should be provided to the citizens of the region and why the localities should consider this funding request.

Residents of long-term care facilities and those receiving community-based care often are put in dangerous situations. The Ombudsman provides a non-biased voice and the expertise to guarantee that residents rights are being met. Without this service, this most vulnerable population would be left with no clear support or advocacy when it is needed the most.

If this is a new program, be sure to include the benefits to the region for funding a new request.

Not a new program.

Target Audience and Service Delivery

Describe the program's intended audience or client base and how those clients are served.

Those receiving facility and community-based care. Clients may be self referred or referred by a third party or may be identified during an ombudsman's visits to facilities.

If your program has specific entry or application criteria, please describe it here.

The only criteria is that a client be a resident in an assisted living or skilled nursing facility, or they are receiving community based home care.

Rappahannock Area Agency on Aging - Ombudsman/DMAS Ombudsman and Elder Abuse Program Budget Narrative

Please indicate in detail reasons for increases or decreases in the amounts you are requesting.

No funding is being requested for the Ombudsman Program. The program description is provided for informational purposes.

If an increase is being requested, please describe the impact not receiving an increase would have on the program.

None.

In particular, please describe in detail if any increase is sought for new positions or personnel.

None.

Rappahannock Area Agency on Aging - Ombudsman/DMAS Ombudsman and Elder Abuse

Rappahannock Area Agency on Aging - Ombudsman/DMAS Ombudsman and Elder Abuse

Collaborative Impact

Efforts and Partnerships

Describe in detail examples of collaborative efforts and key partnerships between your program and the other programs or agencies in the area.

The Ombudsman program works closely with local Adult Protective Service Departments to ensure that residents are treated properly and protected from acts against them.

Collaborative Impact

Describe in detail how the community would be impacted if your program were dissolved or merged with another partner agency.

Without the Ombudsman, individuals receiving Long-Term services and supports would have no advocate to act on their behalf or to train caregivers about resident's rights.

General Information

Program Name Public Education

Is this a new program? No

Program Contact

Name Patricia Holland

Title Executive Director

Email pholland@healthygenerations.org

Phone (540) 371-3375

Program Purpose / Description

Provide an overview of this program

Public Education includes multiple methods of providing the public with necessary information to support aging with a quality of life.

Client Fees

Please describe the fees clients must pay for the services by this program.

No fees are charged.

Justification of Need

Please state clearly why this service should be provided to the citizens of the region and why the localities should consider this funding request.

Without education and information community members would be under-informed and unaware of the benefits of healthy aging and remaining in their homes and communities.

If this is a new program, be sure to include the benefits to the region for funding a new request.

The benefits of this information to support continued independence and community involvement are unmeasurable.

Target Audience and Service Delivery

Describe the program's intended audience or client base and how those clients are served.

Anyone interested in aging information and access to services. Individuals are counseled on programs and services available to assist their needs.

If your program has specific entry or application criteria, please describe it here.

None.

Rappahannock Area Agency on Aging - Public Education

Program Budget Narrative

Please indicate in detail reasons for increases or decreases in the amounts you are requesting.

The increased funding request in the Public Education Program is due to the need for local government funding in different areas. Overall Local Government Funding requests have not changed.

If an increase is being requested, please describe the impact not receiving an increase would have on the program.

Healthy Generations is not asking for an increase in overall Agency funding, but asking for provided funding to be used in this program. Without this funding being attributed to the Public Information Program, the Agency would have to move program funding to another due to lack of matching funds.

In particular, please describe in detail if any increase is sought for new positions or personnel.

None.

General Information

Program Name Emergency Services

Is this a new program? No

Program Contact

Name Patricia Holland

Title Executive Director

Email pholland@healthygenerations.org

Phone (540) 371-3375

Program Purpose / Description

Provide an overview of this program

Provides an up to monetary contribution for the prevention of utility cut-offs, eviction, medical expenses, prescription purchase, and other emergency situations that will cause a severe hardship, etc. for low to moderate income seniors in PD 16.

Client Fees

Please describe the fees clients must pay for the services by this program.

Clients pay no fees for this service.

Justification of Need

Please state clearly why this service should be provided to the citizens of the region and why the localities should consider this funding request.

The Agency's low income clients may have a life situation that causes them to be unable to pay for needed services to allow them to remain in their homes. A year with higher or lower than normal temperatures, may cause larger electric bills. By paying these unbudgeted expenses, seniors are then unable to provide the necessities of every day life.

If this is a new program, be sure to include the benefits to the region for funding a new request.

The Agency has administered an Emergency Services Program for many years. Without this assistance, a client may progress into financial difficulty, therefore furthering the possibility of homelessness.

Target Audience and Service Delivery

Describe the program's intended audience or client base and how those clients are served.

Households with a person aged 60 and over with priority given to those with an annual income of 130% or less of the poverty level.

If your program has specific entry or application criteria, please describe it here.

Applicants provide information on the persons in the household, annual income and a bill that shows the emergency situation (disconnect notice, etc.). After referral to other agencies for assistance, Healthy Generations will assist with funds necessary to stop the impending issue.

Rappahannock Area Agency on Aging - Emergency Services

Program Budget Narrative

Please indicate in detail reasons for increases or decreases in the amounts you are requesting.

No funding is being requested for the Emergency Services Program. The program description is provided for informational purposes.

If an increase is being requested, please describe the impact not receiving an increase would have on the program.

None.

In particular, please describe in detail if any increase is sought for new positions or personnel.

None.

Rappahannock Area Agency on Aging - Emergency Services

Rappahannock Area Agency on Aging - Emergency Services

Collaborative Impact

Efforts and Partnerships

Describe in detail examples of collaborative efforts and key partnerships between your program and the other programs or agencies in the area.

In order for this program to work there must be many community partners. Other non-profits, including The Salvation Army, United Way, many churches and civic organizations provide partial funding of client requests. Because these types of requests are many and funding from each entity limited, the partnerships are extremely important to negate the issue.

Collaborative Impact

Describe in detail how the community would be impacted if your program were dissolved or merged with another partner agency.

Without this program, many households would experience greater financial difficulty and the possibility of homelessness.

	% Achieved / Successful	100	100	100	100			100
Provide outreach and information to other Agency's in the community who also provide assistance in emergency situations.	Total # Clients Served	30	4	300	5			
	Total # Clients Achieved/Successful	30	4	300	5			
	% Achieved / Successful	100	100	100	100			

Explanation & Overview

If your outcomes are significantly less than your stated objectives, please note any reasons why this might be the case

Updates for FY2018

Please note any changes you plan to make to the program, or the stated goals and objectives, given the data you have reported

There are no planned changes

If you are restating the goals or objectives for the prior calendar year, please include those here

Goal:

Providing financial aid and other resources, including referrals to other public and private agencies, to persons 60 and older who have an emergency need for help. The program provides for immediate and short-term assistance in getting resources in an emergency that endangers the health or well-being of older persons.

Objectives		2020 Baseline	2020 Year End	2021 Baseline	2021 Year End	2022 Baseline	2022 Year End	2023 Baseline
To provide emergency financial assistance (up to \$100.00) to individuals 60 or older who have an immediate and short-term need for emergency financial assistance which endangers the health or well-being of those older persons.	Total # Clients Served	50	54	50	50			25
	Total # Clients Achieved/Successful	50	54	50	50			25
	% Achieved / Successful	100	100	100	100			100
To provide additional resources as needed based on the amount of financial assistance required to accomplish the correction of the emergency.	Total # Clients Served	50	168	50	213			60
	Total # Clients Achieved/Successful	50	168	60	213			60
	% Achieved / Successful	100	100	120	100			100

General Information

Program Name Emergency Services

Is this a new program? No

Program Contact

Name Patricia Holland

Title Executive Director

Email pholland@healthygenerations.org

Phone (540) 371-3375

Program Purpose / Description

Provide an overview of this program

Provides an up to monetary contribution for the prevention of utility cut-offs, eviction, medical expenses, prescription purchase, and other emergency situations that will cause a severe hardship, etc. for low to moderate income seniors in PD 16.

Client Fees

Please describe the fees clients must pay for the services by this program.

Clients pay no fees for this service.

Justification of Need

Please state clearly why this service should be provided to the citizens of the region and why the localities should consider this funding request.

The Agency's low income clients may have a life situation that causes them to be unable to pay for needed services to allow them to remain in their homes. A year with higher or lower than normal temperatures, may cause larger electric bills. By paying these unbudgeted expenses, seniors are then unable to provide the necessities of every day life.

If this is a new program, be sure to include the benefits to the region for funding a new request.

The Agency has administered an Emergency Services Program for many years. Without this assistance, a client may progress into financial difficulty, therefore furthering the possibility of homelessness.

Target Audience and Service Delivery

Describe the program's intended audience or client base and how those clients are served.

Households with a person aged 60 and over with priority given to those with an annual income of 130% or less of the poverty level.

If your program has specific entry or application criteria, please describe it here.

Applicants provide information on the persons in the household, annual income and a bill that shows the emergency situation (disconnect notice, etc.). After referral to other agencies for assistance, Healthy Generations will assist with funds necessary to stop the impending issue.

Rappahannock Area Agency on Aging - Emergency Services

Program Budget Narrative

Please indicate in detail reasons for increases or decreases in the amounts you are requesting.

No funding is being requested for the Emergency Services Program. The program description is provided for informational purposes.

If an increase is being requested, please describe the impact not receiving an increase would have on the program.

None.

In particular, please describe in detail if any increase is sought for new positions or personnel.

None.

Rappahannock Area Agency on Aging - Transportation

Program Overview

You may save your work at any time by clicking on the "Save My Work" link/icon at the bottom or top of the page.

When you have completed all questions on the form, select the "Save My Work and Mark as Completed" link/icon at the bottom or top of this page.

You may also SWITCH between forms in this application by using the SWITCH FORMS feature in the upper right corner. When switching forms, any updates to the existing form will automatically be saved.

General Information

Program Name Transportation

Is this a new program? No

Program Contact

Name Patricia Holland

Title Executive Director

Email pholland@healthygenerations.org

Phone (540) 371-3375

Program Purpose / Description

Provide an overview of this program

The purpose of the transportation program is to provide access to Senior Cafe participation for those who are no longer driving and who have no other daytime method of transit. Transportation is provided throughout PD16 to Senior Cafe sites in addition to day-trip locations, shopping, and area-wide nutrition programs and presentations. The transportation program provides the little extra help to an older, frailer individual who is in need of assistance that will keep them in their own home for a longer period. The service is conducted by a trained van driver who offers personalized service from door to door. The service is geared towards individuals who are low income, socially disadvantaged older person aged 60 and older. The van driver is able to build a rapport with the older adult. This service provides participants an opportunity to shop for groceries, life-saving medications, banking, and other socialization.

Client Fees

Please describe the fees clients must pay for the services by this program.

The majority of the cost for services are funded with federal funds under the Older Americans Act. The Older Americans Act prohibits fees, however, donations are accepted on a voluntary basis.

Justification of Need

Please state clearly why this service should be provided to the citizens of the region and why the localities should consider this funding request.

72% of clients requesting nutrition assistance are unable to provide their own transportation. These clients benefit greatly from the many opportunities offered at the Senior Cafes, including: frequent socialization with clients, staff community members and volunteers, physical activity - balancing training, limited mobility calisthenics, chronic disease self- management training, educational and information presentations, crafts, art projects and many other options. None of which would be possible without managed transportation. COVID closed all the cafes, but transportation was shifted to provide rides to COVID vaccination sites and to provide materials so that activities could be completed remotely. If the agency were impacted to the extent that it would shut down, the funds would be placed within another Area Agency on Aging from a different area. There would be no assurance that PD16 would receive their "fair share" of federal and state funding.

If this is a new program, be sure to include the benefits to the region for funding a new request.

This is not a new program.

Target Audience and Service Delivery

Describe the program's intended audience or client base and how those clients are served.

Transportation is offered to individuals who participate in the activities of the agency's Senior Cafes across PD16. Transportation programs are for older residents, aged 60 and older or that reside in PD16 which includes the city of Fredericksburg, and the counties of Spotsylvania, Stafford, Caroline and King George. Clients are picked up from their home and taken to the cafe (meal site) for educational programs, socialization, recreation and nutritious meals. Clients are also offered an opportunity to go to the grocery store, pick up medications from the pharmacy, go to doctor appointments and other area events.

If your program has specific entry or application criteria, please describe it here.

Clients are age 60 and older or qualified disabled individuals under age 60 who come with a participant and are qualified using the Virginia UAI (Universal Assessment Instrument) to determine level of need and triaged to receive services based on individual need and service availability. These clients typically are unable to drive, have voluntarily released their drivers license, have no other means to travel, and cannot get around town.

Rappahannock Area Agency on Aging - Transportation

Program Budget Narrative

Please indicate in detail reasons for increases or decreases in the amounts you are requesting.

The decreased funding request in the Transportation Program is due to the need for local government funding in different areas. Overall Local Government Funding requests have not changed.

If an increase is being requested, please describe the impact not receiving an increase would have on the program.

None.

In particular, please describe in detail if any increase is sought for new positions or personnel.

None.

Rappahannock Area Agency on Aging - Transportation

Collaborative Impact

Efforts and Partnerships

Describe in detail examples of collaborative efforts and key partnerships between your program and the other programs or agencies in the area.

Many community organizations and Departments of Social Services refer community members to the agency for assistance for seniors. The transportation program, in conjunction with other agency programs, works the local Sheriff's departments, The Silver Companies, local churches, and other community groups, like the rotary - throughout the year to gather and distribute donations to clients including: clothing, bedding, cleaning supplies, food items, personal hygiene supplies, and other items. Agency leadership is continually working to identify and access any viable partnerships which would benefit local seniors. The agency is continually seeking volunteers within business to provide a short time, one day service for our clients.

Collaborative Impact

Describe in detail how the community would be impacted if your program were dissolved or merged with another partner agency.

If the agency were impacted to extent that our agency would shut down, the funds would be placed within another Are Agency on Agency from a different area. There would be no assurance that planning district 16 would receive their "fair share" of federal and state funding.

[View Diagram](#) Goals and Objectives

Goals

Goal:

The goal of the Transportation Program is to enable frail, homebound older adults aged 60 and older to remain physically and mentally healthy while living independent in their own homes. These services will reduce, prevent or delay the more costly option of premature nursing home placement. The agency provides transportation to mobility challenged residents aged 60 and older.

Objectives		2020 Baseline	2020 Year End	2021 Baseline	2021 Year End	2022 Baseline	2022 Year End	2023 Baseline
Approximately 150 program participants will be transported to the meal centers, essential shopping and medical appointments. This program only relates to elderly residents who are enrolled in the Senior Cafe's nutrition programs.	Total # Clients Served	135	94	135	26			75

Program Purpose / Description

Provide an overview of this program

Our nutrition program is provided within the designated local senior cafes; and through volunteers and a meal delivery service that deliver meals to seniors. Due to COVID, the homebound requirement has been removed. Until once again being homebound is a requirement, the Agency is providing home delivered meals to all self isolating seniors. The Senior Cafes are located within each of the counties of Caroline, King George, Spotsylvania, Stafford and the City of Fredericksburg. Each Cafe is open three days per week. The cafes offer nutritionally sound meals to local clients and the cafes offer other activities as well. These activities include: frequent socialization with their peers, physical activity - balance training, limited mobility calisthenics, other exercises, chronic disease self-management training, educational and information presentations, crafts, art projects and many other options. Additionally, some individuals are homebound and unable to attend the Senior Cafes, for these clients home delivered meals are supplied. Each client receives nutritionally-sound, frozen or ready to heat meals. Emergency meals are also provided in the event that there is a lapse in service due to inclement weather or unforeseen circumstances. Agency newsletters are also distributed, as well as informational/educational materials. Because making sure clients are receiving adequate services and that they remain healthy and in good spirits, weekly phone calls are made to each.

Client Fees

Please describe the fees clients must pay for the services by this program.

The majority of cost for services are funded under the Older Americans Act. The Older Americans Act prohibits fees, however, donations are accepted.

Justification of Need

Please state clearly why this service should be provided to the citizens of the region and why the localities should consider this funding request.

With more than 36,000 individuals aged 65 and older in Planning District 16, supporting this vulnerable population while remaining active in their communities is integral to overall community health. Access to appropriate nutrition, activity and awareness of services are key components to avoiding unnecessary nursing home placement.

If this is a new program, be sure to include the benefits to the region for funding a new request.

This is not a new program.

Target Audience and Service Delivery

Describe the program's intended audience or client base and how those clients are served.

Describe the program's intended audience or client base and how those clients are served. Nutrition programs are for older residents, age 60 and older, that reside in PD 16 which the city of Fredericksburg, and the counties of Stafford, Spotsylvania, Caroline and King George. Nutrition services are provided to older adult residents of planning district 16, in their own homes when the older resident is unable to get to a senior cafe. Eligible older adults receive up to 7 meals per week. Typically, older adults who are shut in receive meals on a weekly basis. Residents who attend the program conducted at the Senior Cafes receive services 3 times per week at one of the 5 senior cafes located throughout the Planning District.

If your program has specific entry or application criteria, please describe it here.

Nutrition services are targeted to frail older adults who suffer from lifestyle insecurities. These individuals are at risk of premature placement in facility care without nutrition assistance. Individuals may receive priority status based on minority status, poverty level (as allowed by funding), and those who reside in rural areas.

Rappahannock Area Agency on Aging - Nutrition

Program Budget Narrative

Please indicate in detail reasons for increases or decreases in the amounts you are requesting.

The increased and/or decreased funding request in the Nutrition Program is due to the need for local government funding in different areas. Overall Local Government Funding requests have not changed.

If an increase is being requested, please describe the impact not receiving an increase would have on the program.

None.

In particular, please describe in detail if any increase is sought for new positions or personnel.

None.

Rappahannock Area Agency on Aging - Nutrition

Collaborative Impact

Efforts and Partnerships

Describe in detail examples of collaborative efforts and key partnerships between your program and the other programs or agencies in the area.

Many community organizations and Department's of Social Services refer community members to the agency for assistance for seniors. The Nutrition programs, in conjunction with other agency programs, works with local Sheriff's departments. The Silver Companies, local churches, and other community groups, like the rotary - throughout the year - gather and distribute donations to clients including: clothing, bedding, cleaning supplies, food items, personal hygiene supplies and other items. Agency leadership is continually working to identify and access any viable partnerships which would benefit local seniors.

Collaborative Impact

Describe in detail how the community would be impacted if your program were dissolved or merged with another partner agency.

If the program were dissolved there would be no assistance to these individuals meaning that they would no longer receive the supports that make sure they can maintain their independence increasing the likelihood of placement in a facility or loss of life.

General Information

Program Name Homemaker

Is this a new program? No

Program Contact

Name Patricia Holland

Title Executive Director

Email pholland@healthygenerations.org

Phone (540) 371-3375

Program Purpose / Description

Provide an overview of this program

The homemaker program provides supports to keep frail older individuals independent and able to remain in their own home and community. Items such as: Dusting, vacuuming, sweeping and mopping of all areas of a home used by the client, thoroughly cleaning bathrooms and kitchens, washing, drying and folding laundry, washing and changing bed linens, taking out the trash, shopping, errand services, small meal preparation, etc. The program is geared toward individuals who are low-income, socially disadvantaged frail older people aged 60 or older. Often the homemaker is the only or main interaction that the client has with the outside world. Many of the clients within the homemaker service are over the age of 80. These individuals often suffer from chronic or debilitating conditions. Because of these chronic issues, a clean home is needed to keep an individual healthy. The homemaker is able to take care of errands, pick up medically necessary prescriptions as well as purchase fresh food, vegetables, and healthy nutritious drinks for the client. With these services, several of our clients have been able to remain in the home after being discharged from the hospital. This saves the client and their loved ones on the cost of long term care facility costs, rehab costs.

Client Fees

Please describe the fees clients must pay for the services by this program.

The majority of the cost for services are funded with federal funds under the Older Americans Act. The Older Americans Act prohibits the agency from charging fees, however, donations are accepted. Each client is provided with a blank envelope. The client is provided with the cost of the service and asked to make a donation to the agency for their services.

Justification of Need

Please state clearly why this service should be provided to the citizens of the region and why the localities should consider this funding request.

We anticipate the needs for older adults will continue to grow due to the expected increase in this population. This program provides the means for seniors to remain and age in place in their homes. If the agency were impacted to the extent that our agency would shut down, the funds would potentially be placed with another Area Agency on Aging from a different area. There would be no assurance that planning district 16 would receive their "fair share" of federal and state funding. Despite level funding, the agency was able to minimize cost while increasing services.

If this is a new program, be sure to include the benefits to the region for funding a new request.

This is not a new request.

Target Audience and Service Delivery

Describe the program's intended audience or client base and how those clients are served.

Homemaker services are for older residents, age 60 and older, that reside in PD 16 which is the City of Fredericksburg, and the Counties of Stafford, Spotsylvania, Caroline and King George. Those who are frail and having trouble completing activities of daily living are eligible. The client receives between 1 and 4 hours of service every other week. Household cleaning, laundry and shopping/errand running are provided.

If your program has specific entry or application criteria, please describe it here.

Homemaker services are targeted to frail older adults who are unable to stay in the community without the assistance of some services. Those individuals who are minority, below poverty level or reside in a rural community are given priority status. A homemaker is trained to work within the home and with the client. The homemaker will drive to the client's home with the tools needed to keep the home clean. The homemaker will work with the client to clean the home environment, concentrating on the areas identified by the client. When an area of concern is identified by either the client or a family member/physician, the homemaker works with the Director of Client Services to identify a means to make the home more comfortable and clean. The Director of Client Services will conduct periodic home visits to assure the work is completed according to agency standards.

Program Purpose / Description

Provide an overview of this program

CRIA stands for Communication, Referral, Information and Assistance (CRIA). The CRIA program provides communication, referrals, information, and assistance to individuals in the community who are in need of support to find and access appropriate services and facilities to meet their needs. Examples of Information & Assistance requests include: nutrition, transportation, homemaking, emergency alert response systems, nursing home facilities, Medicare insurance counseling and assistance, emergency home repairs, partner agency referrals, assistance in locating help in another area, local information, community programs, and many other requests. This program is the connection to community resources improving awareness and access to services and other types of assistance. Often, individuals are faced with some type of crisis situation and are in need of critical services to help alleviate the crisis while remaining in the community. Trained Specialists are available to connect residents to those critical services. The Specialists offer community resources available to help an older adult remain in their own home after the crisis has passed. The specialist conducts a telephone assessment of the situation. Based on the assessment, information on services available either through the agency or partner agencies are provided to the caller. In instances of emergencies, the caller is directed to call 9-1-1.

Client Fees

Please describe the fees clients must pay for the services by this program.

There are no direct-to-client fees associated with this service. The majority of funding for this services comes from the Older Americans Act. This funding does not allow "fees", however, donations are always accepted and encouraged.

Justification of Need

Please state clearly why this service should be provided to the citizens of the region and why the localities should consider this funding request.

This program provides reliable access to information, improves community awareness and increases access to local services by connecting individuals with appropriate referrals. The agency maintains and distributes the "Senior Resource Directory" which is a listing of all local resources. Through COVID, the Agency has been receiving and returning an average 53,000 phone calls each month. Additionally, 4,000 newsletters were delivered throughout the year on a quarterly basis to the community. We have increased to over 1200 people on our social media page who receive regular updates on our services. Finally, we track the number of hits on our website through google analytics. We continue to have over 25,000 "hits" to our webpage via google. These are family members who may live out of the area looking for vital resources for their loved ones and we are happy to be of assistance to each one.

If this is a new program, be sure to include the benefits to the region for funding a new request.

This is not a new program.

Target Audience and Service Delivery

Describe the program's intended audience or client base and how those clients are served.

Anyone needing information on aging services can contact the agency to find out what resources are available to older adults aged 60 and over. The agency also conducts informative events through radio, television, mail, email, social media, newsletters, website, office visits, in-home assessments, group meetings and formal presentations. Numerous Information & Assistance service referrals to both agency programs and other programs in the community were made from the over 6000 contacts made with community members.

If your program has specific entry or application criteria, please describe it here.

Information & Assistance programs are for older residents, aged 60 and older, caregivers, distant family members, and others who need information regarding aging services for someone that resides in PD 16 which includes the City of Fredericksburg, and the Counties of Spotsylvania, Stafford, Caroline and King George. Those individuals who are minority, below poverty level, or reside in a rural community are given priority status. Additionally, Healthy Generations Area Agency on Aging is a part of the "No Wrong Door" initiative to help reduce the number of contacts needed to access assistance.

Rappahannock Area Agency on Aging - CRIA

Collaborative Impact

Efforts and Partnerships

Describe in detail examples of collaborative efforts and key partnerships between your program and the other programs or agencies in the area.

The agency works closely with local agencies to ensure resources are up to date online and in our resource directory. As staff are out in the community, the staff are able to gather critical information and offer information to those calling the agency. Additionally, the staff refer individuals to appropriate resources first before using "last resort funding" from our agency. If there is another resource available that covers the caller's need, the agency makes that referral to the other agency. When all other resources are exhausted, the agency will evaluate the individuals for services offered by this agency. We have a number of key partnerships within our area. We work very closely with members of Partners in Aging, local DSS offices, local Veteran offices, hospitals, parks and rec departments, for profit entities serving older adults, sheriff's departments, RACSB, disAbility Resource Center and others as identified.

Collaborative Impact

Describe in detail how the community would be impacted if your program were dissolved or merged with another partner agency.

This funding is critical when connecting residents of the greater Fredericksburg area. This funding is used to connect individuals to community resources, resource guides and other critical information. No other agency in the area offers a comprehensive listing of resources to older adults and their families. If the agency were impacted to the extent that our agency would shut down, the funds would be placed within another Area Agency on Aging, possibly from a different area. There would be no assurance that PD16 would receive its "fair share" of federal and state funding. Further, the dedication and devotion to maintain an accurate resource directory would no longer be an option. Older adults, their families and disabled adults may not find the resources to assist them when they need it most.

[View Diagram](#) Goals and Objectives

Goals

Goal:

The goal of the Information & Assistance Program is to connect older adults aged 60 and older, individuals with disabilities aged 18+ and their caregivers' with timely, reliable, comprehensive information and referral services to anyone who requests it, regardless of income, at no cost to them.

Objectives		2020 Baseline	2020 Year End	2021 Baseline	2021 Year End	2022 Baseline	2022 Year End	2023 Baseline
Provide older adult residents of Planning District 16 with timely reliable information easily accessible to the general public.	Total # Clients Served	6,000	3,170	3,000	4,920			4,000
	Total # Clients Achieved/Successful	6,000	3,170	3,000	4,920			4,000
	% Achieved / Successful	100	100	100	100			100
Provide telephone information and referral to approximately 205 new individuals each year.	Total # Clients Served	6,000	154,341	200,000	180,049			150,000
	Total # Clients Achieved/Successful	6,000	154,341	200,000	180,049			150,000
	% Achieved / Successful	100	100	100	100			100

Explanation & Overview

If your outcomes are significantly less than your stated objectives, please note any reasons why this might be the case

Updates for FY2018

Please note any changes you plan to make to the program, or the stated goals and objectives, given the data you have reported

No changes are planned.

If you are restating the goals or objectives for the prior calendar year, please include those here

Goal:

Increased access to community resources and community awareness of HGAAA programs are key to the effectiveness of Information & Assistance. During FY22 the agency will work to increase community awareness through marketing, participation in health and community fairs, partnership building, and other opportunities. COVID may still mean that the Agency will not be able to make face to face presentations, but continues to come up with creative ideas on presenting topics.

Objectives		2020 Baseline	2020 Year End	2021 Baseline	2021 Year End	2022 Baseline	2022 Year End	2023 Baseline
Provide group presentations to community members at both public and private health and community fairs, presentations, and meetings. HGAAA will participate in more than 15 events during FY23.	Total # Clients Served	20	4	20	5			20
	Total # Clients Achieved/Successful	20	4	20	5			20
	% Achieved / Successful	100	100	100	100			100
Make presentations to at least 500 individuals in a community setting to provide information on program availability and access to services during	Total # Clients Served	500	292	200	61			200
	Total # Clients Achieved/Successful	500	292	200	61			200
